

Note: Shown with a 7805 for on board power.

Replace the 7805 with appropriate connector if off board power used (recommended for Nextion >2.8"). Make sure Nextion is run off separate, isolated power supply to minimize noise.

Rev 6.A

Supports <=V5 and V6. Shown with onboard power supply. But a connector can be put on the +5v and Gnd pins of the 7805 footprint to provide external power supply. Required for support of Nextion >2.8". Includes headers for SPI, I2C, Vol-HI and PTT.
